about us.

BE Inspired….. BE Innovative…. BUY with Confidence

It began with a simple curiosity, an inquiring desire to transform a window into a Fashion statement with innovative functionality and impressive style. That desire grew into a vision to create Window Covering & Wall-Covering without limitations. Recognizing a Wall & Window Covering's unique ability to elegantly accent any room of the home. 'CAPE' Shades combine the latest fabrics, textures and patterns with exclusive, easy to operate light control options. By incorporating these elements into a look that is equally exquisite and functional, 'CAPE' Shades reflect an entire lifestyle in each room!!!

INTRODUCTION

CAPE has established itself as a Small Scale registered Industry of Window fashions. The Company has carved a niche by combination of research, technology and experience. The Company's vision is to grow in Window Coverings & Wall-Covering aggressively seeking market share and adding up new products to its range. Our Company specializes in the production of Vertical, Roller, Roman, Combi, Trinity, Wooden Venetian, Honeycomb, Panel Blinds, Digital Wall-Covering, and Digital Glass Films with the State of Art technology, thus making an impression in the Indian market. Expertise in customization , fabrication, installation, and technical support delivers outstanding products with our hallmarks of design, performance and exceptional durability. For the assurance of complete satisfaction, CAPE itself has his own Import house in which we facilitate all the Quality Products from the renowned brands in the world and Post Lockdown, 2020, started up with Fabric Making to minimise the increasing risk of shortage of Fabrics. The Company has built good reputation for the quality of the designs it produces for offices as well as homes. At CAPE, we are committed to building the highest quality, custom-made Wall & Window Coverings. Our products provide solutions for every day, practical need - from privacy to safety to light control - while also satisfying your desire for a stylish furnishing that transforms your home.

OUR MISSION

To provide the best quality products to our valued customers within reasonable time frame and price range.

OUR VISION

CAPE is a professionally managed company, committed to total satisfaction and enhancing market value. CAPE shall form an innovative entrepreneurial & empowered team constantly creating value & attaining national benchmark especially in Small Scale Industry Category. CAPE shall foster a culture of caring, trust & continuous learning, while meeting expectation of customers & society.

OUR SPECIFICATIONS

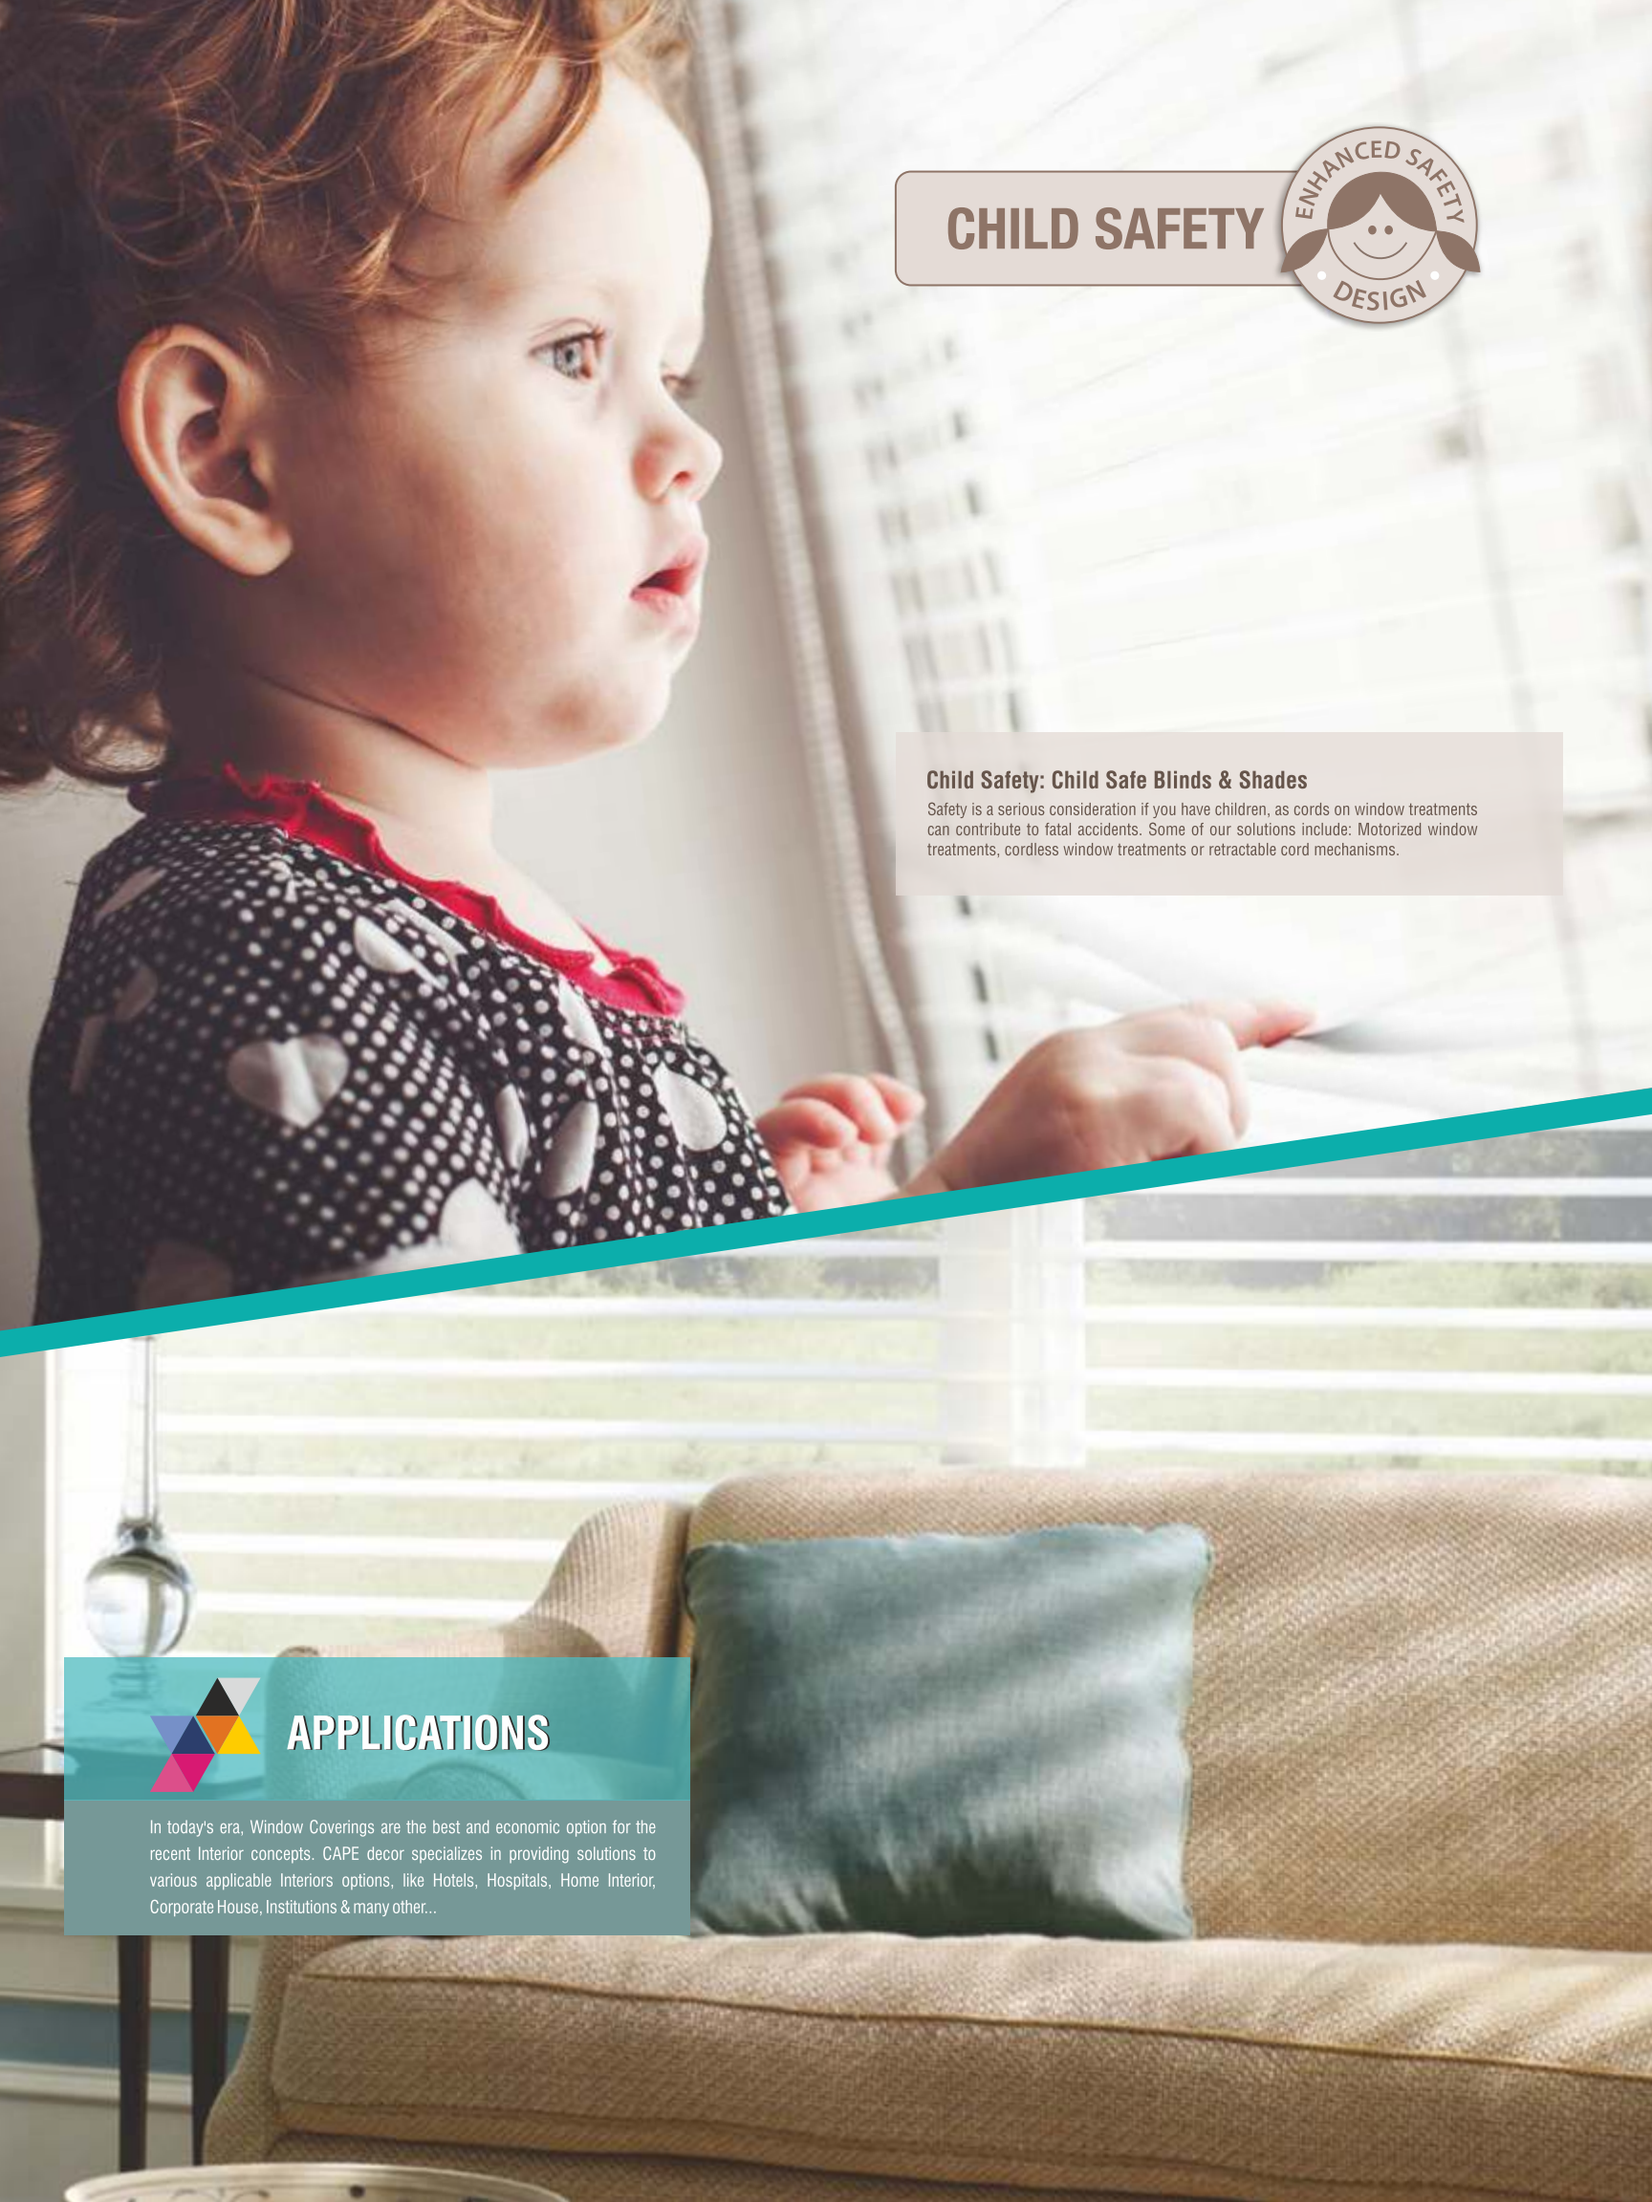
CAPE uses internationally acclaimed, recognized and affordable products. Our prompt service puts us ahead of our competitors. Our focus is on customer satisfaction and convenience. Team of experts who innovate and design products as per international standards. Continuous support from Masters of Wall & Window Coverings in the fields of technology, R&D & latest trends in window fashions gives us competitive advantage over other players in the industry.

STRENGTHS

We have well-equipped with ultra-modern machinery, in-house manufacturing facility, that, ensures customized products for our clients. A self-imposed high standard of quality consciousness, adequate stock level, a strictly monitored service parameter and exposure to the international designs and markets. We constantly invest for R & D to develop up-to-date technical specifications, to ensure that our customers receive high quality durable products that combine the very essence of design with function and will provide total satisfaction over a long period of time. We take pride in ourselves about the quality of our products which are individually tested before being delivered to your door to ensure that you receive the products as you ordered them. CAPE is building their strong Network across India with the new Innovative, Satisfactory & Result Oriented scheme i.e. "Channel Partner Programme" which the company's Chairman had introduced in 2012 with a vision to support the Small Scale Entrepreneurs to establish the work scope in their respective areas with our vast & updated Product range of Wall & Window Fashions at a budgeted Investment profile.

TEAM POWER

Our people are our greatest strength. Over the years the company has not only acquired expertise in the field of window covering, wall covering, and Glass film industry, but, in the process, we have developed a pool of highly qualified and competent staff. Dedicated resources are ever ready to serve our CLIENTS in the best possible way……



CHILD SAFETY

ENHANCED SAFETY DESIGN

Child Safety: Child Safe Blinds & Shades

Safety is a serious consideration if you have children, as cords on window treatments can contribute to fatal accidents. Some of our solutions include: Motorized window treatments, cordless window treatments or retractable cord mechanisms.

APPLICATIONS

In today's era, Window Coverings are the best and economic option for the recent Interior concepts. CAPE decor specializes in providing solutions to various applicable Interiors options, like Hotels, Hospitals, Home Interior, Corporate House, Institutions & many other...

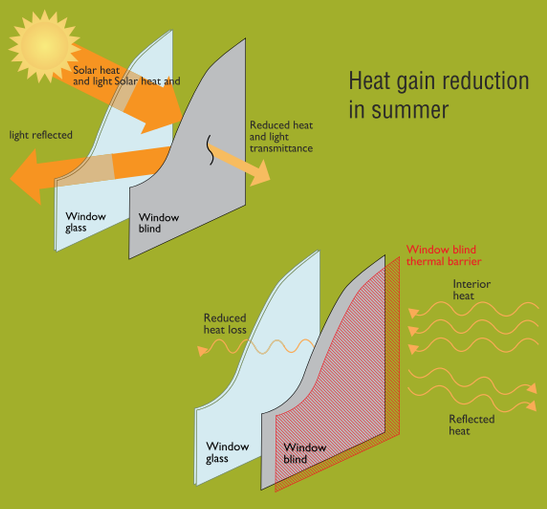
Environment Friendly

Environment Friendly Blinds, Shades & Window Treatments

- Green your space
- Save to energy costs with insulation
- Environmentally sound natural fibers

Energy Saving…

…keep you cool and save your money…



Anti Bacterial

Antibacterial

Hospitals, Care homes, Schools, Institutions and Nurseries would all benefit from fitting Antimicrobial fabrics & Greenguard to help maintain a more sterile environment. We have many fabric ranges treated with Ultrafresh* to satisfy these sectors and provide an effective and efficient form of adjustable solar shading that also helps fight against infection.

Window Blinds

VERTICAL *shades*

Vertical Shades are vertical lengths of fabric that are clipped to a sliding track at the top and operated with a plastic chain. These pieces of fabric (louver) are joined together by weights to ensure the louver are evenly weighted across the length of the track. The louver are also joined together by a chain at the bottom which works to stabilize the blinds.

ALUMINUM BARS

Roman Blinds are a fantastic blind option for clean lines and a contemporary feel for your home. Roman blinds are beautifully simplistic and really accentuate the material that they are made from. Their elegant yet softer approach to window coverings combines the stylish lines of curtains with the simplicity of a blind. Add a touch of sumptuous style to your home with our soft and fully lined Roman fabrics. Roman blinds are great for any room whatever the time of year. The blind may be fitted either inside or outside the window recess. The operating chain is located on the right hand side.

COMBI *shades*

Top-Down / Bottom-Up
Cellular Blind

Day & Night
Cellular Blind

Cellular Shades are the most versatile and value based in the category. They are much acclaimed for their insulation, privacy and light filtering capabilities . These window covering are built with small honeycomb shaped pockets or 'cells ' designed to keep air from either entering or escaping your home , and the thick cellular fabrics provide an insulating air to help keep your room at an ideal temperature. Moreover the distinguished styles of a bottom up / top down options allow you to lower shades from the top or rise them from the bottom to maintain privacy while letting in natural light glow in your room. Thanks to their versatility, new day/night shades are some of the most popular new window treatments in the market. Day&Night Shades can be light filtering and blackout at the same time, giving you two shades in one.

VERTICAL CELLULAR *Shutter*

Vertical Cellular Shutter is an elegant and useful window treatment. These shades have pockets of air between the layers, so they block heat transfer. You can use these shades to keep your home warm in winter and cool in summer. These shades come in multiple opacity levels, so you can pick the perfect match as per requirement. These shades have layered panels of fabric with pleats in a honeycomb shape. They fit in a track at the top of your window and slide from side to side. You can slide the shades closed for privacy or to block light. The pleated folds of cellular shades create a crisp, modern look. They work particularly well with mid century and industrial décor but are simple enough to complement other styles as well.

Continuous Cord-Loop System
Available for: 50mm

Wireless Motorize System

We makes wooden blinds using 100% natural wood which offer the most excellent traditional touch with elegant, modern furnishings making your home look all the more beautiful. These wooden venetian blinds grant the exquisiteness of natural timber to your windows. These are very useful besides being elegant. These furnish a corresponding impression of charisma to any room. Our array of wooden blinds India is offered in a range of colors and shades as indicated by the individual requirements of the customers. We have intricately designed this collection so that it complements the furniture, flooring, cabinets and other wooden furnishings in the room, thus, adding to the elegance and class of the room.

WOODEN VENETIAN *shades*

ALUMINIUM VENETIAN *shades*

Aluminium Venetian Shades are created by threading together thin slats of aluminium. Perfect for more official settings, they offer the same flexible control in light along with a razor sleek finish. In the Solid Aluminium Series, you get quality aluminium slats, matching cords and robust working parts. These blinds are the most sturdy in nature and can withstand extreme sunlight. They can also be motorized or automated for better control and ease of use. One of the top advantages of Aluminium Venetian Blinds is that they are hard wearing and long lasting. These blinds are totally moisture-proof, meaning that they can be used in wet areas such as the kitchen or bathroom. As an extra bonus, Aluminium Venetians are rather easy to clean. All the homeowner has to do is go over them with a duster or wipe each slat with a cloth.

PANEL *shades*

Panel blinds are a versatile and contemporary window treatment. Stack back the panels to enjoy your view or simply glide them across to attain total privacy. Panel blinds are available in a wide selection of fabrics, with both blockout and translucent styles suitable for every home. Choose from many exciting options to mix and match the fabrics to create a unique décor feature. Panel Blinds have track options, opt for a classic track with 3, 4 or 5 channels and with modern finish. In Panel Blinds, different stack sides available from left hand stack, right hand stack and centre open. Panel Blinds can also be used as Room Divider. Choose from face or recess application. Face fix can allow you to fully stack back panels to maximize your view. Panel Blinds are Child Safe product.

PVC Industrial Strip *Curtains*

PVC Industrial Strip Curtains are transparent PVC material with magnificent see-through qualities that allows the light to pass through with minimum amplification, avoids harmful ultraviolet rays and dust to pass in. PVC Industrial Strip Curtains are mainly suggested to commercial and industrial areas. PVC Industrial Strip Curtains are designed for the applications to suit general weather conditions. They are designed by using PVC strip with a small overlap like normal vertical blinds for internal doors & heavy strips with maximal overlap for the largely exposed doorways. PVC Industrial Strip Curtains are most commonly suggested solutions for the industries to protect employees & goods from conflicting environmental conditions such as heat, cold, noise, humidity, dust, insects and drafts where continual passage is unavoidable. Being the leading window blinds manufacturer, we provide the PVC Industrial Strip Curtains with supremely high-quality service and standards.

Wallcoverings

Wallcoverings

Wallcovering is a material used in Interior Decoration to decorate the interior walls. Digital inkjet printing technologies using Ultra-Violet (UV) cured inks are being used for custom wallpaper production. Photographs or digital arts are output onto blank wallpaper material. Typical installations are corporate lobbies, restaurants, athletic facilities, and home interiors. This gives a designer the ability to give a space the exact look and feel desired. Wallcovering combines high aesthetic values for the seekers of premium offerings.

Interior Film

INTERIOR *Films*

Interior Films are for those who want a minimalist look that is both rustic and modern, this wallpaper does just the trick. Featuring large detailed designs, the realistic feel of this design adds an artistic character to any space, whether it is used in a living room or kitchen. All surface stickers - apply it on your walls, doors, cupboards, glass and any other non-porous surfaces. Adhesion remains good regardless of the surface. Vinyl Wall Art is created to last. All our decals are made with high quality sign vinyl.
